About PureGym

PureGym was started in 2008 by entrepreneur Peter Roberts. Peter had previously owned successful hotels and holiday parks in the UK.

PureGym is different from most gyms as it offers a low-cost monthly membership fee; gym members do not have to sign up for a full year's membership but just pay their membership a month at a time. The gyms have a range of high-tech gym equipment and fitness studios. Its competitive advantage is that its gyms are open 24 hours a day, 7 days a week. 5

In 2024, PureGym had the highest market share of gyms in the UK with 1.5 million members and 400 gyms. It also owns gyms in Denmark and Switzerland. Its objective is to open more gyms in Europe and to expand into the US. 10

Fitness instructors provide group fitness classes and gym instruction. PureGym uses performance-related pay with its instructors. Managers meet with the instructors on a regular basis to review their performance and discuss individual targets they are set. One of these targets is to encourage gym members to sign up for a one-to-one training programme. Customers pay an additional fee for this personal training service. 15
